

PRANAV BABASAHEB SHINDE

Software Engineer | Backend Developer

Chennai, India | +91 8208809956 | shinde.pranav2024@vitstudent.ac.in | LinkedIn | GitHub

ABOUT ME

Computer Science undergraduate with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, and backend software development. Experienced in developing REST APIs, scalable web applications, and full-stack solutions using Django, Django REST Framework, React.js, PostgreSQL, Docker, and Redis. Familiar with integrating AI APIs into web applications while focusing primarily on backend engineering and software development.

EDUCATION

Vellore Institute of Technology, Chennai | 2024–2028

B.Tech in Computer Science Engineering

CGPA: 8.98 / 10

PROJECTS

SecureCodeAI – AI-Powered Code Security Platform (Top 5 Finalist)

- Developed scalable backend services using Django REST Framework.
- Designed REST APIs for authentication, code analysis, and report management.
- Built full-stack features using Django, React.js, and PostgreSQL.
- Integrated external AI APIs to provide automated code analysis features.
- Containerized the application using Docker and collaborated using Git.
- Tech: Python, Django, DRF, React.js, PostgreSQL, Docker.

Climate Sync – Smart Agriculture Platform (Top 5 Finalist)

- Developed backend APIs using Django for climate data management.
- Integrated React.js frontend with backend services.
- Designed database models and API endpoints for agricultural insights.
- Built dashboards for monitoring climate trends and farming recommendations.
- Tech: Python, Django, React.js, PostgreSQL.

TECHNICAL SKILLS

Languages: Python, C++, Java, JavaScript, SQL

Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Backend: Django, Django REST Framework, REST APIs

Frontend: React.js

Databases: PostgreSQL, MySQL, Redis

Tools: Git, Docker, Linux, Postman

AI Integration: Groq API, Gemini API, OpenRouter (API Integration)

CODING PROFILE

LeetCode: Active problem solving in Arrays, Strings, Trees, Graphs, Prefix Sum, Sliding Window, Binary Search, and Dynamic Programming.
